

OUTDOOR POOLS UNDER SOCIAL DISTANCE GUIDELINES

Amid the Coronavirus (COVID-19) pandemic, The Sidney Albert Albany Community Center places the highest priority on the health and safety of our members. We have instituted new safety guidelines in compliance with the local Department of Health, State of New York and Centers for Disease Control.

ALL MEMBERS MUST MAKE A RESERVATION PRIOR TO ARRIVING.

To manage capacity, no guests will be allowed to use the outdoor pools at this time. Please contact Customer Care at customercare@albanyjcc.org if you need assistance with your membership **PRIOR TO ARRIVING**.

STAY HOME if you have symptoms of COVID-19, have tested positive for COVID-19 within the last 14 days, or were exposed through close contact to someone with COVID-19 within the last 14 days.

We need your help to ensure the safety of our Members and Staff. **Members who do not follow the safety guidelines will be asked to leave.**

1. Maintain a 6-foot minimum distance from people, not in your family grouping, both in and out of the water. When the 6-foot minimum cannot be achieved (such as bathroom usage and opening pool admittance) everyone must wear an acceptable face covering that covers both the nose and mouth.
2. Pool furniture will not be provided. You may bring your own portable chairs and tables if they fit in your designated area on lawn.
3. Access to the locker rooms is limited to the restrooms. Please shower before arriving at the outdoor pools and email AmyZ@albanyjcc.org if you need to make an appointment to retrieve items from your locker.
4. Practice good hand hygiene with frequent hand washing with soap and water for at least 20 seconds or use hand sanitizer when soap and water is not available.
5. This will be in addition to regularly hourly checks by the lifeguards as mandated by new COVID 19 protocol.

We greatly appreciate your cooperation! Our Facility Staff and entire life guarding team is working hard to provide a safe environment to ensure the overall health, enjoyment, safety, and wellness for everyone. For additional information, please visit the Centers for Disease Control and Prevention (CDC) website at www.cdc.gov.
